

Creating A SOLIDWORKS ID

A SOLIDWORKS ID is your single account credentials for all things SOLIDWORKS related. Access software downloads, search the knowledge base, post on SOLIDWORKS forums, manage your licenses, and view training videos.

1. Navigate to <u>www.solidworks.com</u> and click the Profile icon in the top right.

2. Click SW Customer Portal.

3. Click on Create a SOLIDWORKS ID.

Note: Use the navigation buttons on these pages. Do not use your standard browser navigation buttons. To register or add additional products to your account , see Register My Products in the Solidworks Customer Portal.

- 5. You will be sent an email to verify your account. Accept this verification to complete the account setup process.
- 6. After verifying your email your account, log in. If your account appears with padlocks over some of the features, click on **Register my Products** and work through the serial number registration. If your company has an administrator set up through the Admin Portal on MySolidWorks.com, you'll need to have them assign a product license too you rather than registering one yourself.

- **10.** You should receive a confirmation message if your serial number is registered successfully.
- 11. If your account still shows locks next to the features, it may just be that you need to log out of your account and clear your browser cookies and cache and then try logging in again. You can also try logging in through a different web browser.
- **12.** If you have any issues getting your account set up, please contact GSC Technical Support at 800-454-2233.
